Mid-State Contracting Company has long been known for excellent service and attention to detail. We are committed to giving you the kind of service our customers deserve and expect.

Mid-State Contracting is a mechanical contractor specializing in the fabrication and installation of food and dairy equipment, dust collection and material handling systems, pollution control, process piping and plumbing, heating, ventilating and heat recovery.

We operate from a 41,600 square foot shop and warehouse facility located north of Wausau, WI near the Highway 51 beltline.

We employ approximately 50 to 75 tradesmen including sheet metal mechanics, pipefitters and welders on a year-round basis. Approximately 85 percent of our work is performed with our own forces. Specialty subcontractors are usually employed for temperature control, insulation, sprinkler and electrical work.

Fabricating and plasma equipment is available to handle up to 1/2 inch and 4 inch plate, respectively. Equipment includes (1) Linde computerized plasma cutting machine; (4) power shears; (3) power brakes; (4) drill presses; (5) abrasive cut-off saws; (5) power rolls; (25) wire feed welding machines (in shop); equipment such as lock formers, fiberglass duct machine, beading machine, hand brakes, hand tools, etc.

Major field erecting equipment includes (1) crane truck; (4) scissor lifts; (2) platform bucket lifts; (32) electric welding machines; and (12) portable (gas engine) welding machines.

In addition to major field equipment listed above, we also own tools such as duct hoists; scaffolding; gang boxes; pipe hoists; pipe threading machines; cutting outfits; and power and hand tools necessary to perform this work.
