**OFFER OF THE MONTH**

**BELT OR HOSE INSTALLATION**

**\$20 OFF**

NOT VALID WITH OTHER OFFERS - OFFER VALID THROUGH SEPTEMBER 30, 2024

**10 STEPS TO PREPARE YOUR VEHICLE FOR FALL**

Treat the Fall season as a time to prepare your car for the harsh conditions that cooler temperatures bring.

**1. Check the Belts and Hoses**

Look for cracks, leaks, and wears in the belts and hoses. You want to ensure that there are no signs of splitting, fraying, or glazing. One major problem with faulty belts and hoses is overheating. Although this usually occurs in the Summer, it can occur anytime of the year, including during the colder months.

**2. Check the Fluid Levels**

It is crucial to replace your car's fluid levels, as necessary. This would include windshield washer fluids, transmission fluids, coolant, brake fluids, and power steering fluids. All are very important for ensuring that your car runs smoothly. Washer fluid is important for maintaining visibility. Transmission fluid is important for cooling. Coolant regulates the engine's temperature, while brake fluid serves as a lubricant, preventing corrosion. Power steering fluid is crucial for operating the vehicle.

**3. Check the Tires**

Check the tread, inflation, and overall condition of your tires. Rotate your tires, so that your tires wear evenly. Make sure your tire's contain the appropriate amount of air. Maintaining proper tire pressure is very important, because cold weather causes tires to lose air quickly. Make sure you have the proper tires.

**4. Prepare for the Cold Weather**

Getting stranded on the side of the road any time of the year is not fun. As the weather turns cooler, you especially need to be prepared for a roadside emergency. Be prepared if a situation like this were to occur. Stock your vehicle with blankets, first aid kits, jumper cables, flashlight & bottled water.

**5. Check the Oil**

Change your oil at the recommended oil change interval. Consult your service advisor to determine the recommended oil interval, as it may vary by manufacturer and driving habits. It used to be recommended to change your oil every 3,000 miles. However, this has changed due to the construction of modern engines and the use of synthetic oil. If your car has an oil-monitoring system, you can use this device as a guide.

**6. Check your Heat**

Check to make sure your heat is working properly. You do not want to be without it when cold weather hits. Make sure the defroster works, as well. Driving with a fogged-up windshield is unwise and unsafe. If either of these components are in need of repair, take your vehicle to your nearest Auto Select.

**7. Check the Brakes**

It is important to get your brakes checked before getting well into the Fall and Winter seasons. Brakes are crucial for safe driving. Cold weather heightens brake problems, since the roads have the potential of becoming slippery from snow and ice. Listen for unusual noises that may point to failing brake pads.

**8. Install All-Weather Floor Mats**

Consider investing in all-weather floor mats. These mats are long-lasting to protect your car's floors against water, snow, dirt, and grime. These mats will even shield your car from stains and spills. They also do a good job for holding up against general wear and tear. You can use them all year long, not just in the colder months.

**9. Check the Lights**

Take a walk around the exterior of your vehicle. Check to make sure that all your lights, including headlights, taillights, brake lights, and flashers, are working as they should. If needed, replace a broken or blown-out bulb. These lights ensure that other drivers see you on the road, even in bad weather or other conditions where visibility is low.

**10. Check the Battery**

Check the battery for charge and signs of corrosion. Also, have Auto Select perform a battery load test to ensure it is ready for the upcoming season!

*Here's what our clients are saying...*

This was the first time I tried Auto Select. The experience was exceptional. I brought my daughter's car in for some issues. They treated it like it was their own daughter's car. Very reasonable pricing. Very quick and they kept me informed the whole time. They made a customer for life.  
*David G., Appleton East*

Good and fast. Customer service 5/5  
*Danilo C., Appleton Express*

They stand behind their work and always take great care of my vehicles. *Matthew K., Appleton North*

I cannot rave enough about these guys. They're affordable, quick & accurate with their work, and so friendly! If you know there's going to be some major repairs, the employees go over everything and make suggestions but don't start until they're given the OK. I'll go to them for everything car related. *Michelle M., Neenah*

What a great auto repair shop! I have been taking my cars here for over 7 years now, and I can't tell you how good they are. It's sometimes hard to find a repair shop that you can TRUST, and I can tell you this is the ONE. They handle everything from oil changes to major repairs, and for every service my vehicles have been taken care of professionally and flawlessly. If you're looking for a repair shop, LOOK no further.  
*Brian S., Green Bay East*

Auto Select has been awesome. We recently purchased a used truck and wanted to make sure we were getting our money's worth. Staff was friendly, and explained everything after their inspection of the vehicle! I appreciated their services immensely. *Jessica M., Green Bay West*

Was treated with respect. Everyone is very nice and knowledgeable...thought the price was good. *Sandie B., Hortonville*

This shop is the best. The people here will explain things and are nice about it. They are smart and trustworthy. I won't go to any other shop for my vehicle! *Linda F., Stevens Point South*

I had the most amazing & helpful experience ever!! Sue fixed my dilapidated broken key! I had an awesome driver taking me to my office while they were working on my van & then they delivered my van to my office after the work was done.... they outdid themselves !!!  
*Brenda T., Stevens Point Express*

They did an excellent job. I was totally satisfied with the work and the cost! *Del S., Stevens Point East*

The staff are always kind, knowledgeable, and not pushy. They let you know what you need to know, and they give you options when available. *Tyson H., Shawano*

For the last 15 years I have been servicing my vehicles at Auto Select. Butch and his team are absolutely fantastic! Their number 1 priority is customers first. I have never in my 15 years ever had a problem too big that they could not handle. I will always recommend Auto Select and would never take my vehicles anywhere else!! *Rodney, Weston*
